

Beaula Ekka

Full Stack Developer | UX/UI Designer | Graphic Designer

Profile

I am thrilled to embark on a new journey as a full stack developer. Drawing from my 10 years of experience as a corporate trainer, graphic designer, and IT support provider, I have honed my skills in communication, creativity, and problem-solving.

By transitioning to a junior full stack developer role, I aim to leverage my previous experiences and combine them with my newfound technical skills in Full Stack development and UX/UI Design to create intuitive and visually appealing web applications.
